rionnken@outlook.com

I'm an experienced developer of more than 5 years. I like to work with web technologies such as Vue.js, but I always like learning new tech and things to make, and am always willing to try something new.

EXPERIENCE

ByWinona — *Software Engineer*

February 2025 – Present

Upon transfer of the team from Outliant, I resumed my work on the ByWinona project, but now with a bigger focus on frontend development.

Outliant — *Software Engineer*

December 2020 – February 2025

I worked on ByWinona, a telemedicine ecommerce project, using Vue.js and Express.js to create a way of legally prescribing medication to customers.

J&L Enlghtech Development Solutions — *Web Developer*

September 2017 – September 2018

During this time, I mostly worked with PHP, creating APIs and designing frontend systems to work with the APIs.

EDUCATION

STI College Novaliches, Quezon City, NCR — *BS Computer Science*

June 2019 - August 2022

I graduated as Magna Cum Laude from the BS Computer Science program. I was also a President's Lister and a scholar of the STI Foundation.

PROJECTS

ByWinona — *Telehealth*

ByWinona is a telehealth company that legally provides medication to menopausal/perimenopausal women in the US to help relieve symptoms associated with aging. I worked on all subprojects within ByWinona, including the patient onboarding, patient dashboard, admin (customer support) dashboard, doctor dashboard, all the way from the start of the company. I also assisted in the development of the backend and marketing website.

SKILLS

Vue.js
Nuxt
Express.js
AWS
MongoDB
Python (Flask)
TailwindCSS
BootstrapVue

AWARDS

Magna Cum Laude – I received Latin honors upon graduation, as the second highest graded student on campus, with a GPA of 1.22 (equivalent to a GPA of 3.91).

President's Lister – I qualified as a President's Lister all the way through graduation.

LANGUAGES

English

Filipino

I grew up in Australia with English as my main language, with Filipino as my mother tongue.
